AquaSound develops and produces waterproof audio products for safe use in the bathroom. Naturally, these products can also be used in the kitchen, living room or on the veranda. Also waterproof TVs and even an outdoor TV are part of the delivery program. Waterproof, user-friendly and 'easy to use' are the most important keywords. No cumbersome installations, but easy-to-integrate products that - after the plug has been inserted into the socket - can be used almost immediately. Technical knowledge for installation or use is hardly necessary... that is what we mean by 'Plug & Play'. That's our goal. AquaSound is a Dutch company pur sang that uses the slogan Waterproof Intelligence with pride.

## **Bluetooth Audio Sets**

On the following pages you will find audio sets that work on the basis of Bluetooth. These Bluetooth Audio sets are easy to use. You only need an audio source to stream music. For example your iPhone, Smartphone or a tablet. All speakers can be supplied in white, black matt or chrome matt.

#### Budget

BMN50EASY-TW (white)  
BMN50EASY-TZ (black matt)  
BMN50EASY-TC (chrome matt)

#### Lite

BMN30EASY-RW (white)  
BMN30EASY-RZ (black matt)  
BMN30EASY-RC (chrome matt)

#### Luxe

BMN50EASY-SW (white)  
BMN50EASY-SZ (black matt)  
BMN50EASY-SC (chrome matt)

#### Pro

BMN70EASY-ZW (white)  
BMN70EASY-ZZ (black matt)  
BMN70EASY-ZC (chrome matt)

## WiFi-Audiosets

On the following pages you will find audio sets that work on the basis of WiFi audio. WiFi audio has a longer range than Bluetooth. The larger the home network, the greater the range. You include these amplifiers in your home network once. This can be done via WiFi, but even better via LAN. You can then immediately start streaming from, for example, the Spotify app on your mobile phone. Or use the app to listen to your favorite radio station. WiFi audio also offers you the possibility to combine multiple amplifiers (read: rooms). Stream to 1 room or to all rooms at the same time. All speakers in the sets can be finished in white, black matt or chrome matt.

#### Budget

WMA30-TW (white)  
WMA30-TZ (black matt)  
WMA30-TC (chrome matt)

#### Lite

WMA30-RW (white)  
WMA30-RZ (black matt)  
WMA30-RC (chrome matt)

#### Luxe

WMA50-SW (white)  
WMA50-SZ (black matt)  
WMA50-SC (chrome matt)

#### Pro

WMA70-ZW (white)  
WMA70-ZZ (black matt)  
WMA70-ZC (chrome matt)

## N-Joy Bathroomradio

On the following pages you will find all N-Joy bathroomradio sets. The use of a mobile phone is not necessary with these sets. With the N-Joy you can stream various services\*. Spotify, Deezer, Amazon, but also TuneIn, Tidal and Apple Music. With a touch of the screen, your favorite radio station sounds, but also that beautiful relaxing playlist in Spotify or Deezer. The controller comes standard with a wall mount (also charger). This way the controller is always ready for use.

\* A subscription may be required to make optimal use of the above services.

#### Budget

EMN30-TW (white)  
EMN30-TZ (black matt)  
EMN30-TC (chrome matt)

#### Lite

EMN30-RW (white)  
EMN30-RZ (black matt)  
EMN30-RC (chrome matt)

### Luxe

EMN50-SW (white)  
EMN50-SZ (black matt)  
EMN50-SC (chrome matt)

### Pro

EMN70-ZW (white)  
EMN70-ZZ (black matt)  
EMN70-ZC (chrome matt)

## Bathroom TV

Turn your bathroom into a real wellness area. This Smart TV gives you access to Google's App Store. Install Apps of your choice and enjoy, for example, Netflix, Youtube, Ziggo GO or KPN. Of course, a DVB-C and DVB-T2 tuner is also provided. Available as in-wall and on-wall model. The TV has WiFi for easy integration into your home network. In addition, a LAN connection is also provided to integrate the TV into your home network.

The Bathroom TV comes with a Media-Box, which contains all connections and slots. The Media-Box is separate from the screen. This is how we keep the waterproof and non-waterproof components separate. Safety comes first!

The integrated speakers provide excellent sound reproduction. But it is also possible to combine the TV with one of the AquaSound audio sets. The sound of the TV is reproduced over the AquaSound speakers.
