Bluetooth Audiosets

Below you will find all audio sets that work on the basis of Bluetooth. These Bluetooth Audiosets are easy to use. You only need an audio source to stream music. For example your iPhone, Smartphone or tablet. All sets can also be combined with the (optional) Subwoofer kit. This Bass kit fills a room with deep bass tones for even more experience. All speakers can be finished in white, matt black or matt chrome. In addition, there is a range of 'mood' colors. These colors fit seamlessly with the contemporary sanitary colors.

Speaker Colors

Almost all speakers can be supplied in 3 basic colors. In addition, the Rumba, Samba, Zumba and Subwoofer are also available in 5 'mood' colors. These colors are perfectly matched to the contemporary sanitary colors.

Basic Colors

Mood Colors

Optional: Subwoofer

Although the bass performance of the previous sets is more than fine, the Subwoofer kit fills every room with even deeper bass tones for an even greater sound experience. The set includes a 150 Watt Subwoofer and a mono amplifier - also 150 Watt - that are perfectly matched to each other. The deep bass tones can be set meticulously on the amplifier to enjoy the low tones to the max. Simply connect the Subwoofer kit to one of the previous sets using the supplied link cable. The Subwoofer kit comes with a 'quick-fix' frame specially designed for this speaker. With this quick-fix system, you mount the frame to the main ceiling. The Subwoofer therefore does not make contact with the suspended ceiling. This creates a vibration-free suspension system. The Subwoofer can be quickly and easily attached to the original ceiling. The installation depth (from the visible side of the lowered ceiling and the main ceiling) should be between 120 mm and 160 mm (deeper is allowed, but you will then have to make structural adjustments to a depth of 120-160 mm).

N-Joy Bathroomradio

Here you will find all N-Joy bathroom radio sets. Using a mobile phone is not necessary with these sets. With the N-Joy you can stream various services*. Spotify, Deezer, Amazon, but also TuneIn, Tidal and Apple Music. With a press on the screen your favorite radio station sounds, but also that nice relaxing playlist in Spotify or Deezer. The controller comes standard with a wallmount (also charger). This way the controller is always ready for use. The speakers are available in 8 different colors.

* To take full advantage of these services, a subscription may be required.
